About Company

We, **Bioscience Nutrition** are a leading manufacturing expert, working from the best location of Hansi (Hisar, India)

“Our motto is to provide good food with good health, taste, and nutrition value in our product. We believe in ethical business practice”

We began our journey in 2016 as a dedicated manufacturer of Peanut Butter and Oats Muesli in Hansi, Haryana. Over the years, we have grown by catering to customer demands and ensuring consistent quality and hygiene in every product we deliver.

At our state-of-the-art manufacturing facility, we take pride in producing a nutritious and delicious range of Peanut Butter and Oats Muesli using the finest ingredients and advanced techniques. Our unique recipes, perfected by experts, give each product the taste and quality our customers love.

Whether you are looking for Creamy Peanut Butter, Crunchy Peanut Butter, Chocolate Peanut Butter, Natural Peanut Butter, or our wholesome Oats Muesli, we promise fast and reliable deliveries without ever compromising on quality.

As a trusted private label manufacturer, we are committed to providing products that meet the highest standards of nutrition, taste, and freshness — making us the right choice for businesses seeking premium peanut butter and oats muesli products.

BIOSCIENCE
NUTRITION

Quality & Food Safety Our Top Priority

At **Bioscience Nutrition**, we strongly believe in a quality-oriented work approach. That's why we have a team of qualified Quality Control (QC) professionals on the field to conduct thorough testing at every stage of production.

As a trusted private white-label manufacturer of Peanut Butter and Oats Muesli, we ensure that only top-quality peanuts and premium oats go into our products. The peanuts undergo three levels of sorting to ensure purity, and every production batch is laboratory-tested for impurities like aflatoxin to maintain consistent quality standards.

Our manufacturing facility follows strict hygiene and cleanliness protocols. Skilled workers are trained to maintain the highest standards of food safety and hygiene throughout the production process, ensuring that every jar of peanut butter and every pack of oats muesli delivers the same great taste and nutrition our customers expect.

**“When it comes to taste and health,
our products are Pure, Tasty & Packed with Goodness.”**

How We Work

BIOSCIENCE
NUTRITION

1

ASSORTED PEANUTES

We only use the best quality assorted peanuts

2

100% BEST QUALITY

We assure the best test in every spoon of our peanut butter

3

PRIVATE LABEL MANUFACTURER

Providing Private Label Manufacturing for Brands Driven by Quality.

2

100% BEST QUALITY

We Manufacture Natural Peanut Butter Flavors As Per Your Needs.

Why you need a Private Label Peanut butter Manufacturer?

If you have a perfect recipe for peanut butter and you want to sell peanut butter with your brand name, you will need to set up a manufacturing facility and get all the proper governmental nodes. All this requires huge

investments to be made and a lot of patience and experience. Have your own brand of peanut butter here at Just Bite Foods or get a private mark on one of our current recipes

“if You Want The Peanut Butter To Be Personalized According To You, The Formula Will Be Applied Accordingly.”

The following steps illustrate the process of going towards your own private label. This is a general process, deviation from this process is always possible. Please contact us for more information.

STEP-1 APPLICATION

A request for private label from the client. We then provide with more specific information on products, package, minimum order quantity and lead time. We also offer our clients the flexibility of loading one or more product variants in a container.

STEP-2 SAMPLE APPROVAL

After receiving all the necessary information samples are forwarded to the client with different recipes, product specifications and package size for approval. Further custom formula-tions available to meet specific needs

STEP-1 ARTWORK

When all the products elements (recipe & package) are approved, client is then requested to forward the label and outer case artwork in CDR or AI format file. Moreover we provide suggestions to the client on developing the artwork

STEP-4 PRODUCTION

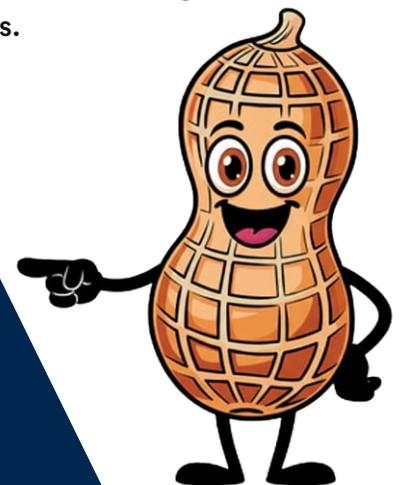

After the artwork is approved, the first production will take place. The production will be accompanied by multiple qualified employees to assure the end result meets the client's standards.

STEP-5 TRACEABILITY

Our quality management system ensures the perfect product traceability from raw material/packing material receipt through the finished product dispatch.

STEP-6 LOGISTICS

We offer various delivery options to the clients. However the clients can also arrange their own logistics process.
